FIELD NOTES

OF THE
DEPENDENT RESURVEY
OF
PORTIONS OF THE NORTH AND EAST BOUNDARIES,
A PORTION OF THE SUBDIVISIONAL LINES,
AND
THE SUBDIVISION OF CERTAIN SECTIONS,
TOWNSHIP 47 NORTH, RANGE 86 WEST,

Of the SIXTH PRINCIPAL Meridian,
In the State of WYOMING

EXECUTED BY

DOUGLAS J. JACOBSON CADASTRAL SURVEYOR
JAMES L. WERDEL CADASTRAL SURVEYOR

Under special instructions dated JULY 30, 19 81, approved JULY 30, 1981,

, which provided for the surveys included under ~~XXXXXXX~~/Group
Number 429, and assignment instructions dated JULY 7, 1982,
AND MAY 30, 1984.

Survey commenced JULY 19, 19 82

Survey completed AUGUST 15, 19 84

CHAINS

The following field notes are those of the dependent re-survey of portions of the north and east boundaries, a portion of the subdivisional lines, and the subdivision of certain sections, Township 47 North, Range 86 West, Sixth Principal Meridian, Wyoming.

The history of surveys pertaining to this resurvey is as follows:

Edward F. Stahle surveyed the exterior boundaries and the subdivisional lines in 1884. William H. Thorn re-surveyed a portion of the east boundary, and the north boundary designating the boundary of the Big Horn Forest Reserve in 1900-01. Marvin J. Lytle dependently resurveyed the west boundary in 1935. Clyde W. Atherly and Ladislaus Klohs dependently resurveyed the east boundary in 1936. Marvin J. Lytle dependently resurveyed the north boundary in 1939.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 429, Wyoming, dated July 30, 1981.

Preliminary to the resurvey, the lines of the previous surveys were retraced and diligent search was made for all corners and other calls of the field note record. Identified corners were remonumented in their original positions; lost corners were reestablished and monumented at proportionate positions based on the latest official record, but only after exhausting every possibility of finding direct evidence of such corners. The retracement data was thoroughly verified and only true line field notes are given herein, which refer to the completed survey.

The survey was executed with a WILD theodolite Model T-16, a HEWLETT PACKARD electronic distance measuring instrument Model 3805-A and a ZEISS Electronic Total Station Model Elta 4A, and by chaining methods. The instruments conform to the U. S. Bureau of Land Management specifications and were maintained in proper adjustment at all times. The direction of all lines refer to the true meridian, determined by direct altitude observations of the sun at various points along the lines of survey and carried forward by sustained angulation.

The geographic position of the cor. of secs. 25, 30, 31 and 36, on the E. bdy. of the Tp., as determined by traverse from U. S. Coast and Geodetic Survey Triangulation Station ONION-ET, located in section 29, T. 47 N., R. 85 W., is:

Latitude: $44^{\circ} 00' 16.4''$ N., Longitude: $107^{\circ} 07' 40.2''$ W.

The mean magnetic declination is $13\frac{1}{2}^{\circ}$ E.

Dependent Resurvey, Portion of the East Boundary,
T. 47 N., R. 86 W., Sixth Principal Meridian, Wyoming

(Restoring the dependent resurvey executed by
Clyde W. Atherly and Ladislaus Klohs
in 1936)

Dependent Resurvey, Portion of the East Boundary,

CHAINS

GENERAL DESCRIPTION

The area embraced by this survey is situated in the northeastern portion of Washakie County, approximately 10 miles east of Tensleep, Wyoming. The terrain is mountainous, with the elevation ranging from about 7,500 feet to about 8,700 feet above sea level. The soil is primarily sandy loam and rocky. The timber consists of scattered pine, fir and hemlock in the higher elevations and cottonwood along the creeks, with undergrowth of sagebrush and a moderate growth of native and domestic grasses.

Drainage is southerly by Canyon Creek, assisted by numerous other draws and ravines throughout the area.

Access is provided by numerous roads and trails throughout the area. There was no evidence of mineral activity at the time of survey.

Form 9600-11
(September 1983)

[illegible]

CERTIFICATE OF SURVEY

(X) (We), Douglas J. Jacobson and James L. Werdel, HEREBY
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 30th day
 of July, 1981, (X) (We) have dependently resurveyed portions of the
 north and east boundaries, a portion of the subdivisional lines, and sub-
 divided certain sections, Township 47 North, Range 86 West,

of the Sixth Principal Meridian, in the State of Wyoming, which
 are represented in the foregoing field notes as having been executed by (X) (us) and under (X) (my)
 (our) direction; and that said survey has been made in strict conformity with said special instruc-
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in
 specific manner described in the foregoing field notes.

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
 Cheyenne, Wyoming

The foregoing field notes of the dependent resurvey of portions of the north and
 east boundaries, a portion of the subdivisional lines, and the subdivision
 of certain sections, Township 47 North, Range 86 West, Sixth Principal
 Meridian, Wyoming,

executed by Douglas J. Jacobson and James L. Werdel, Cadastral Surveyors
 having been critically examined and found correct, are hereby approved.
